

Ensign Sara Daniels
Systems Design Development
Project Manager
Command, Control, Computers
Engineering Center

Ensign Daniels assumed the duties of Systems Design Development and Project Manager at the Command, Control and Computers Engineering Center in Portsmouth, Virginia in February of 2014. Her responsibilities include design and support of mission critical navigation systems across three asset classes comprising 150 small boats and 66 cutters.

Prior to receiving her commission through the Direct Commission Engineer program, in December 2013, Ensign Daniels served aboard the USCGC Munro, Kodiak, Alaska. As an Information Systems Technician 2nd Class, IT2 Daniels maintained SIPRNET

and UNCLASSIFIED communications during the Munro's Behring Sea patrols.

Ensign Daniels prior assignments include Electronic Support Detachment New Orleans (2009-2013) as an Information Systems Technician 3rd Class where then, IT3 Daniels, provided systems and communication support during the Deep Water Horizon Oil Spill.

Ensign Daniels holds a Bachelor's of Science in Computer Science in Network Engineering from Bellevue University. She is currently pursuing a Master of Science in Applied Intelligence from the Institute of Intelligence Studies at Mercyhurst University. Ensign Daniels also serves as the National Secretary of the National Naval Officers Association.

Her awards include five Letters of Commendation.
